

# Islamic Kasim Tuet Memorial College's students shine every year

Over the years, our students' academic perseverance has been fruitful. The number of students pursuing further education at local and overseas universities has been increasing. One such instance is Yu Asiya, who did exceptionally well in 2020 HKDSE by scoring 34.5 points. She is pursuing a Bachelor of Arts and Sciences at The University of Hong Kong. With our students' and teachers' collective effort, we will be sharing more success stories of our students in the coming years.

**IKTMC students' achievements at  
the 2019 InfoMatrix World Finals  
Romania**

Our teach-savvy students, led by our dedicated teachers: Mr. Rustam and Mr. Sanwal, won several accolades at the 2019 InfoMatrix World Finals Romania. With their devotion, they won a gold award for Short Film Competition, a silver award for Robotics (Line Follower) Competition, and an honorable mention for Robotics (Lego Sumo) Competition. As our students continue proactively participating in such competitions, we look forward to their new achievements.
