School Vision

Inspired by the principles in the Holy Quran and teachings of Prophet Muhammad (May Peace Be Upon Him), our college aims at providing holistic education to individuals that ensures love of peace and kindness to mankind and other creatures, true success in this life and in the hereafter. We endeavour to provide quality education through well-balanced curriculum in moral, academic, physical, social, civic, aesthetic and spiritual domains.

Management and Organisation

We put into strenuous efforts to:

- Strengthen the leadership and empower the middle management
- Maximize students' learning potential and promote effective learning
- Broaden students' horizons and raise their social awareness

Staff Development Day

On Basic Law and National Security Education

We are glad to have Dr. Lee Hoey Simon, MH, JP, Chairman of CDC Standing Committee on Values Education, EDB, HKSAR, Mr. Jasper Tsang Yok Sing, GBM, GBS, JP, Former LEGCO President, HKSAR and Assistant Principals and teachers from Tin Shui Wai Government Secondary School to come to our school to share their knowledge and experiences on the following topics on May 31, 2021:

1. National Security Education in Secondary School by Dr. Lee Hoey Simon, MH, JP
2. Rights and Duties of Hong Kong Residents under "One Country, Two Systems" by Mr. Jasper Tsang Yok Sing, GBM, GBS, JP
3. Implementing Cross Curriculum National Education and National Security Education with Traditional Chinese Values by Assistant Principals and teachers from Tin Shui Wai Government Secondary School

Mr. Jasper Tsang Yok Sing (GBM, GBS, JP)

Dr. Lee Hoey Simon, MH, JP

Assistant Principals and teachers from Tin Shui Wai Government Secondary School

School Ethos and Support for Students

Discipline and Counseling Committee aims to nurture students so that they become more self-aware and self-disciplined. In addition, we want to lead our students to be good and successful citizens in the future. That is why we organize different activities together with Form Discipline, other committees, and external organizations to help enhance their understanding and knowledge.

Thank you campaign

Students and teachers are holding a designed poster to send their appreciation to medical personnel during the COVID-19 period through video shooting.

S4 counseling workshop – self-understanding

S4 students are doing personality tests in groups in order to start their career planning.

S6 students are learning the method of relieving stress.

S6 counseling workshop – Stress management

New arrival group

All current new arrival students are having a gathering and getting to know each other by playing ice-breaking games.

The harm of cannabis and drug booth

Social workers are playing mini-games with students to promote the awareness of the harm that cannabis and other drugs can cause.

Learning and Teaching

Educational Support for Non-Chinese Speaking Students

Our college provides additional support for our non-Chinese speaking students to facilitate their learning of Chinese language: providing after-school support programmes in learning Chinese language; appointing additional teachers to support non-Chinese speaking students' learning of Chinese language; arranging intensive Chinese language learning and teaching mode(s), e.g. An additional Chinese language class is provided in each level to help non-Chinese speaking students learn Chinese language more effectively; developing school-based Chinese language curriculum and adapting learning and teaching materials; organizing cultural integration activities; and hiring additional manpower to do the translation services to facilitate the communication with the non-Chinese speaking parents.

Whole School Approach to Integrated Education

The objective of the whole school approach to integrated education of our college is to provide students with appropriate support in order to cater for learners' diversity so that their potential could be fully developed. There is a student support team in our college. The team has regular meetings to follow up students' progress. The measures provided by this team include: assessment accommodation, remedial learning groups to enhance their Chinese and English language ability, social skills training groups, speech therapy, and individual education plans for students, etc. Moreover, an education psychologist from the EDB regularly visits our college to provide support services for our students and training seminars for our teachers. The supporting fund is provided by "the Learning Support Grant (LSG) for Secondary Schools."

E-learning

Teachers and students can have different e-learning activities in the classroom with the school wifi and i-Pads. Students show higher motivation and participate more actively in the learning process because i-Pads can bring a greater diversity of learning activities to students. The followings are some examples. Kahoot can give students instant results and feedback. Students can search information immediately from the Internet in class to back up their arguments for their group discussion; some teachers use e-learning apps or platforms such as Quizlet, Nearpod, and E-puzzle in order to arouse students' interest in learning. Due to COVID-19, teachers and students conducted online lessons via Google Meet, and students submitted their assignments with the Google Classroom platform during the school suspension period.

Promotion of Reading

The library department organizes the "Reading Scheme" to encourage students to develop a good reading habit. In addition to printed library books, students can also read the e-books provided by our school, including e-library plus, Britannica and HKEdcity.

SI Library Orientation

Reading Scheme Awards

Support from Wah Yan Social Service Community

Due to the pandemic, online learning was conducted. However, some of our students were not able to have suitable electric devices to attend the online classes. After discussing with Committee members of Wah Yan Social Service Community, we are grateful that they donated 31 new laptops, 63 used laptops and electric devices to our students.

Participation from External Program

Swire Properties awarded 7 laptops to our school and students for their outstanding performance in an event for ethnic minorities students

Chinese Language

IGCSE & GCE (AS) Examination

Last year, 15 students achieved Level 8 and Level 9 in the International General Certificate of Secondary Education (IGCSE) Chinese Exams. In addition, 6 students got Grade A in the General Certificate of Education (GCE) Exams in AS Level Chinese.

Out-of-school Experience and Achievements

This year, some students participated in different competitions and activities such as the 72nd Speech Festival, writing competition, and penmanship competition which gave them a lot of opportunities to use Chinese in daily practice. Some of them got encouraging results, e.g. F.3 Yang Xiao Jie got a merit prize in a writing competition organized by Ming Pao. Our F.6 students, Shaika Shaida and Lotifard Zahra, and a F.4 student, Ummar Haryat Khan got the chance to write for Ming Pao in Chinese, to describe their 10 years of life in the future. We also helped two F.3 students publish their Chinese writings on an online learning platform.

Professional Development

The Chinese panel has joined a learning community for Chinese language teachers launched by the Education Bureau (EDB) Language Learning Support Section. By having regular meetings, we collaborated in exploring coping strategies and reflected on pedagogical practice.

Our students' writings in the local Chinese newspaper

©2020明報 (with the permission of Ming Pao Daily News on 29/3/2021) All rights reserved.

Our students use Chinese to interview the School Manager, Mr Cheng Ka Ho, MH, JP.

Students achieved great results in some Chinese Speaking Competitions.

English Language

English Speech Festival 2020-2021 Roundup

Our students made remarkable achievements at the 72nd Hong Kong School Speech Festival this year. The majority of our 19 students obtained the certificate of merit or above. The students exhibited a strong sense of responsibility and independent initiative, and were guided closely by their respective English teachers. Despite the COVID-19 pandemic and hence the new format of the competition, the competing students persisted and worked hard on their material. We are very proud of our junior students for obtaining the highest results; Khan Hussain from 3B was awarded second place, and Chowdhury Ahnaf from 1B, and Rahman Md Aniq from 2B were awarded third place in English Solo Verse Speaking.

English Debate Team

This year, the Debate Team was busy preparing for the Hong Kong Secondary Schools Debating Competition (HKSSDC). The debates were all held on Zoom due to the pandemic. While a new format for participants, coaches, and adjudicators, the competition ran quite smoothly, and the students learnt to make full use of their body language when communicating ideas through an online platform. They also learnt to manage their time efficiently and communicate effectively over various platforms since face-to-face meetings were quite limited.

This year, our Debate Team also grew in size with many new members expressing their interest in joining the team thanks to the encouragement of the teachers and our very own seasoned debaters. Together, both old and new members learnt to work as a team, dividing up research work and also actively participating in speaking games and mock debates to brush up their argumentative and public speaking skills. Despite the ongoing pandemic, the students have benefited greatly from working together and participating in the HKSSDC this year.

SCHOLAR English Alliance "From Page to Stage" Programme 2021 - Comedy of Mistakes

Congratulations! We have been awarded an Emerald Medal because it has been the sixth year since IKTCM participated in "From Page to Stage" programme. On 19 March, about a dozen S4 students were taken to see the much-anticipated drama performance, Comedy of Mistakes, adapted from Sherlock Holmes' The Speckled Band.

In this play, the first part is where everything goes wrong on stage with hilarious consequences. This drew laughter! When it all finally went right in the second part, the audience could get a rare glimpse of the diverse aspects of what and whom constitutes a theatre production. Being absorbed by the innovative approach of the play, our students were all engaged in the show, the real learning occurred!

English Week

From 31 March until 1 April, 2021, our students showed off their school spirit by taking part in English Week online. On the first day, students were able to show off their prowess in an English Trivia Challenge using Nearpod. Day two saw our students listen to a podcast from BBC Learning English and display their listening comprehension skills. It all culminated with our students becoming vlog personalities, as they showed us all "how to make their favorite snacks." Thank you IKTCM students for creating a memorable English Week.

Mathematics

A number of specific teaching plans and activities were carried out in this school year. They were as follows:

Teaching strategy

For the sake of the students' learning effectiveness in priority

Maths classes were divided into a number of small groups with the most appropriate teacher-student ratio in junior and senior forms.

To cater the individual needs

- In order to create a platform in learning mathematics without difficulty and progress smoothly, junior and senior form students were placed into different classes according to their ability and developmental stage in Mathematics.
- Remedial and enhancement classes were provided
- Extra tailor-made learning materials and worksheets were designed for our students. Therefore, it could facilitate learning effectiveness.

HKDSE preparations for S6 students

- To achieve the value-added goal in HKDSE result, remedial and enhancement strategies were applied in senior forms.
- Special classes were provided for the students after school in order to help our students to get good results.
- To achieve better results in HKDSE, extra classes and concentrated exercises were given during the preparation period for the HKDSE.
- A large number of compulsory questions were offered. Also, a specific target and clear objectives were set to help students develop an awareness of the key issues in the HKDSE questions.
- To enhance the effectiveness of learning, some tailor-made e-learning (video episodes) were provided for students. It makes learning simpler and easier.

Activities Organized

To enhance students' appreciation of Mathematics and to arouse their interest

- To coincide with the school's 50th anniversary, a Mathematics Calculation Puzzle Competition was held to increase students' sensitivity to numbers. STEM compass design activities for S3 students were organized to help students build mathematical knowledge and problem-solving ability.
- To enhance students' chances of success and mathematics skills, students participated in different mathematics competitions, such as the 2020 ICAS International Competitions and Assessments for schools.

The purpose of the activities was to train students to apply the concepts of mathematics knowledge in daily life and to enhance students' cognitive development and understanding of mathematics so that students could understand that learning and life are closely related.

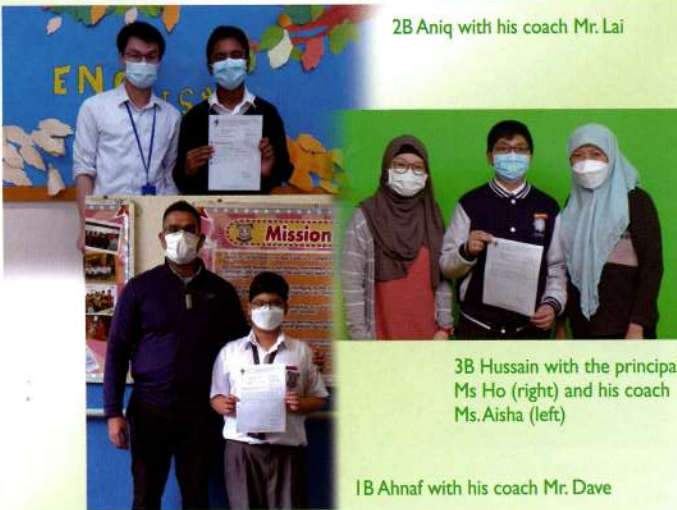

To cater for the characteristics of our students

To make provision for characteristics of our students in learning, review and appropriate teaching activities would be given at the beginning of each chapter, with the level focusing on the beginners initially. It stimulates students' motivation, lets students master future study in mathematics learning easily, and creates a relaxing learning atmosphere for those who have a sense of confusion in mathematics.

To make mathematical concepts more tangible

In order to inspire students to participate in learning, different teaching aids were used to symbolize theoretical mathematical concepts. For example, the topics of area and volume, geometry and probability were produced into specific project designs for students to participate in. The department also encouraged the students to master their knowledge and drew their attention to the key points of learning. This could help students transform short-term memories into long-term memories easily.

2B Aniq with his coach Mr. Lai

3B Hussain with the principal Ms Ho (right) and his coach Ms. Aisha (left)

1B Ahnaf with his coach Mr. Dave

Bravo! Emerald Medal!

The marvelous performance is irresistible for drama lovers.

Competing students and the coaches celebrating their Round 1 win

Students learning important research skills during team practice sessions

English Trivia game Senior Form Participants

Tracking Student scores during the English Trivia Game

Liberal Studies

Despite the unpleasant pandemic situation as well as school suspensions, both Liberal Studies Department and Moral and Civic Education Committee collaborated well to offer valuable and eye-opening learning experience to our students.

We have invited researchers from Our Hong Kong Foundation to give us a seminar on Artificial Intelligence. The Form Four students had better understanding about thriving businesses in the near future, such as 5G and Cloud computing.

Last but not least, we have invited the staff from Oxfam Interactive Education Centre to share with us about the worsening contemporary environmental situation, and what we can do as global citizens.

Our students were attentively listening to the new trends in Artificial Intelligence Industry in the near future.

We were delighted to have Bibi Uzma, an IKTM's brilliant alumna, who shared her university life and overseas exchange experiences with our Form One students during the Liberal Studies Week.

Her overseas experience included exchange trips and study programmes in the United Kingdom, Brazil, and Myanmar. Uzma showed her juniors the marvels and wonders of different cultures and lifestyles across the globe. She even taught the young students some colloquial daily Portuguese expressions. We believed her sharing sowed the seeds of eagerness to tour the world in many students' minds.

Travel Tales! Uzma had so much wonderful experience to share with our students! Everyone was amazed by such amazing possibilities in life. So let's fly out soon!

Islamic Activities

- The fundamental concept of Islam was introduced to teachers.
- The committee encouraged and assisted students in applying for the scholarship organized by the Islamic Union of Hong Kong.

Whole year Routine Religious Activities were held:

- Daily Zuhur prayer and every Friday Jummah
- Weekly Quran lessons (S.1-S.3)
- Arabic classes for S1-S3
- Lectures given by overseas scholars online
- Weekly Friday donation for the needy

Islamic Week

In order to let the teachers and students know more about Islam, a series of activities were held from 7th to 12th April, 2021.

Ramadan Activities

It is our school practice to organize Iftar program during the holy month of Ramadan. Due to the pandemic, we cannot organize it as usual. However, alhamdulillah (praise be to God), we were able to collect sponsorship from different Consulates and individuals to prepare food packages to our students and their families on four Fridays. May Allah accept and rewards all the supporters to make this project a success, ameen.

On behalf of the Consulate General of the United Arab Emirates (Hong Kong), Emirates Red Crescent and the Zayed Charitable and Humanitarian Foundation, Ms Mariam Alshamsi (in white dress), Acting Consul General presented a cheque to our school for sponsoring the Ramadan project

Through the support from Kuwait Consulate, Islamic Union of Hong Kong and Sheikh An Naqwi, tons of dates were received and we had distributed them to our Muslim Students, staff, the families as well as the Muslim Community in Hong Kong.

Monthly Lunch Gatherings with the Local Imams

Throughout the year, we organized monthly lunch gathering cum training sessions in which honorable Imams would be invited to give a talk to students and teachers, share lunch and lead Zuhur prayer:

S6 Monthly Gathering

Imam giving talk to students

Mufti Muhammad Arshad giving talk to the students during Monthly Gathering

Qari Muhammad Awais giving a talk during the Monthly Gathering

Some refreshments after the talk

Prayer workshop to New S1 students

One of the students sharing his Islamic knowledge with his classmates

Other Activities

Palestine Day

Our Student Union organized a series of activities in June to let people understand more about the Palestine issue, such as assembly, display board, designed a T-shirt for fund raising. Alhamdulillah, we had collected HK\$138,815 and the said amount was donated to help needy families in Palestine.

Students wrote "Message" to support the Palestinians

Display board to show the unbearable situation faced by the Palestinians

Free Palestine T-shirt designed by the Student Union for fund raising

Tung Chung Tamil Muslim Jamath Hafiz Mohamed Hasan- Treasurer; Thaika Noohu-President and Cader Sahib presented the fund collected by selling the Free Palestine T-shirt designed by our Student Union

Fund raising

In response to the fund raising campaign organized by the United Welfare Union Hong Kong Limited for the re-location of Masjid Ibrahim, we invited our colleagues, parents and students to support it. Finally, we had collected HK\$103,080 for it.

Supervisor Dr. Siu presented a cheque to Br. Mohammad Ilyas and Br. Muhammad Ramzan from United Welfare Union Hong Kong

Innower Projects

Our school teachers joined the "InnoPower@JC: Fellowship for Teachers" programme ("the Fellowship"), which included the 10-week sabbatical programme, supporting efforts that aim at building an ongoing community of fellows, buddies, and other teachers and friends who aspire to bring positive change to education. The Innower activities are as follows:

Study Skills Training by INNOPOWER-ACES

Br Naveed sharing his valuable knowledge during the staff development day

Imam Muhammad Tufail giving a speech on the importance of cleanliness

Imam, students and guests, all contributing their parts in the community service

Career and Guidance

Career and Guidance Department 2020-2021

The Career and Guidance Department organized various activities to cater for students' diverse needs in accordance with their interests to enhance their all-rounded abilities for their future studies and career:

*A new webpage of Career and Guidance Committee (School Google site)
<http://career.learn.iktmc.edu.hk/>

A new webpage of Career and Guidance Committee

For Junior Forms (S1-S3)

We helped students understand themselves, develop teamwork and leadership skills through different self-challenge activities.

1. School life planning talk for S1

A school life planning talk for S1

2. Customized school-based career and guidance materials

a) DSE elective subjects booklet (S3)

- Provided updated information on DSE elective subjects for elective selection
- Included senior students' recommendations and sharing of experience on different DSE elective subjects

b) Introduction Videos of Elective Subjects

Introduction Videos of Elective Subjects

A DSE elective subjects booklet

For Senior Forms (S4-S6)

The department provided different life planning, advanced study information, and different types of career exploration (including career talks, workplace visits and job shadowing) to senior form students.

Life Planning Program

a) YDC Funding Scheme for Youth Life Planning Activities (Junior Achievement) (S4 - S6)

b) Youth Engineering Exploration Program 2020 & 2021 (S3 - S5)

Our school won the 2nd runner-up award in that competition in 2020.

The 2nd runner-up award in Youth Engineering Exploration Program 2020

The 2nd runner-up award in Youth Engineering Exploration Program 2021

Advanced Study and Career Information Talk and Workshop (S6)

AMSAHK Medical School Immersion Programme MedStart 2021

«Dare to dream it»

A guidebook was published for all S6 students to think about their big dream in life. They tried to plan and achieve it step by step. It also included plenty of information on advanced study.

«Dare to dream it»

**For All Students (S1 - S6)****a) Life Planning survey (S1 - S6)**

- Around 84% of students from S1 to S6 already completed the survey
- For the dream work section, most students selected "very interested" and "interested" in business work.
- The survey found that their special dream jobs include chocolate chef, zoologist, animator, dancer, pianist, mathematician, forensic scientist, roboticist, model, poet, interior design, makeup artist, vet, and more.

b) Career Star booklet

The development of individual student's life planning throughout the 6 years of secondary school life was recorded.

A Career Star booklet

c) Joint School Career Development Society (S3 & S4)

Our school nominated 2 students to represent IKTMC to join the Society and share their life and career development ideas with representatives from other schools.

Others**a) CLAP for Youth @JC, Phase II: "Hong Kong Benchmarks for Career and Life Development"**

Our school has become one of the network schools.

b) Sharing with the public about our school's experience in life planning education and activities for non-Chinese students

- We invited a guest speaker of COU4031 Career Counselling - Career development of diverse population - Non-Chinese Speaking (NCS) students in Secondary Schools (The Education University of Hong Kong)
- We shared our experience on life planning activities virtually (Hong Kong International Aviation Academy)

Attended a talk as a guest speaker in EDUHK

Co-Curricular Activities

The fulfilment of whole-person development has always been a defining feature of the whole-school curriculum. As a strategy for realizing such a vision, students are encouraged to experience a broad range of interests and hobbies for fostering their versatility.

There were originally around 50 interest groups set up. A specially designed program aiming at fostering their personal growth, self-understanding, and coping with adversity has been arranged.

English debaters posing after their victory in an online debate

To nurture our students with a global vision has always been a concern in designing the whole-school curriculum. We wish our students could promptly resume profiting from various activities, training, competitions, and overseas exposures right after the pandemic.

Ummar Hyatt Khan is awarded the Outstanding Leaders of Tomorrow by the Outstanding Young Persons Association

Parent-Teacher Association**The 2020-2021 PTA Exco members are as follows:**

- Chairman : Mr. Mohammad Ishaque
 Vice-Chairman : Mr. Mohammad Arif & Mr. Abu Bakar Ma Wing Cheung
 Hon. Secretary : Ms. Khushboo Khan & Mr. Thokar Nandalal
 Hon. Treasurer : Mr. Tamang Chirinibi & Ms. Ghaffar Iqrah
 General Affairs : Mr. Mohammad Arif & Mr. Sultan Waheed
 Public Relation : Mr. Mujtaba & Mr. Lee To
 Social Secretary : Ms. Sajed Salma Minhas, Ms. Rehman Rubina, Ms. Ho Wai Ki, & Ms. Kausar Sobia

PTA held its Annual AGM and Inauguration of Executive Committee Ceremony online on 29 Jan, 2021.
